# Structural Organization

Printing Press  
**FUTURE**  
L.L.C.

طبعة المستقبل  
ذ.م.م.

Future Printing Press was founded in 2000. Since its start the company has presented itself as one of the leading printing companies in the United Arab Emirates in its both public and private sectors. The company employs a technical team with founded experience and high skills. It is equipped with state of the art highly developed tools and machinery in the area of design. It implements all kind of printing works with the latest equipment of modern technologies, such as laser-printing and heat foiling, and the latest color separation unit (CTP), lamination technique, die-cut, spot UV and much more....

The company has its headquarters in the emirate of Abu Dhabi, and the printing is carried out in all production units in the industrial city of Mustafa 24 hours per day. We are keen on providing printing products of highest quality, at carefully calculated prices and in the shortest time frame. We provide all kind of printed products such as books, magazines, brochures, posters, flyers, calendars, and all kind of leather products, such as certificates of appreciation, folders, cards...

We, at Future Printing Press L.L.C., endeavor to satisfy the requirements of our valued customers in the best possible manner and work as a professional team, with diversified experience and skills, in coherence and commitment between artistic innovation and industrial production, to satisfy the needs of all groups of society.

# Trophies

# Digital Printing

Future Printing Press L.L.C. has the state of the art digital printing capabilities, which provides very lively colors with nice contradiction of black and white, whether you print a simple text or more sophisticated material, such as special publications related to the product, brochures, postcards, leaflets, news bulletins and offers.

Digital printing services in Future Printing Press L.L.C. is ideal for projects of small quantities (less than 2000 copies), because our digital printers are equipped to deal with all kind of paper in all sizes and weights. You can print in one color or in the full range of colors, regardless what the requirements of your project may be.

The use of colors has an important impact on the number of readers and on the enhancement of the level of responsiveness to the printed products. Research revealed, that using full colors increases the impact by %15 compared with using black and white.

Contact us today, in order to reach the best results with your project. The specialists in Future Printing Press will take care of you in choosing the best printing technology suitable to your project and your budget. We will be also pleased to provide you with recommendations regarding design solutions and choices, paper size and quality, and all that at a very competitive price.

# Offset Printing

Future Printing Press is one of the most state of the art, innovative and reliable printing companies in Abu Dhabi. We are proud of our reputation and endeavor to maintain it by giving our full attention to the high quality and setting up and caring for our friendly and communicative relationship with our customers.

We are aware of the fact, that when you carry out your jobs according to the highest standards and keep you involved and informed about every single step of the operation, then you will come back to us and assign to us all your projects.

With our understanding to your needs and requirements, we permanently expand our services in order to satisfy these needs and requirements.

The company is using traditional and digital tools enabling to implement all kind of printing products, starting with business cards until publications and leaflets, large companies' reports and requirements of exhibition pavilions.

# CTP Color Separation

When we mention printing quality, Future Printing Press comes always in the first ranking. The company provides its customers with products and services of high quality thanks to its unbreakable insistence on delivering the absolutely BEST. For this reason we invested immensely in developed modern technologies and in our human resources.

Since the company launched its activities, the management invested in the best quality equipment and machinery from all over the world. Among this equipment and machinery, which we use in providing our customers with products at absolutely top quality level we would like to mention the programs for printing preparation, the offset printing machines, the digital printing, the metallic palettes, the digital printing correction and the full-color offset printers, with the state of the art automatic production and operating system.

# Graphic Designing

Our graphic designers use high electronic technologies to develop their designs. In order to implement your marketing planning, we can produce the best and most suitable design for your projects and works. At the same time, we can concretize your ideas through accurate and exact implementation and creativity:

Catalogues, leaflets, advertising brochures, all kind of advertising materials, forms and stationary, annual reports, news publications and magazines, cover design...

# Industrial Production

There is no doubt, that the main characteristic distinguishing Future Printing Press from its peer group companies in this field is the quality and the innovation in design and preparation and implementation of the printing process, and the final refining touch, while observing all requirements of safety and competence in the company design in order to increase productivity and enhance performance level.

Future Printing Press L.L.C. is also distinguished by the fast implementation and provision of its services, as well as the availability of the necessary skilled technicians, to satisfy all the requirements of our customers. The company is always committed to reach the customer's full satisfaction.

The staff members in Future Printing Press L.L.C. enjoy immense experience and skills in addition to the endeavor to provide high quality products to the customers.
